

July 22, 2021 – Covid 19

If people were being honest about Covid 19 - they would say I do not know what to believe.

To fully Understand Covid 19 - **Event 2021: A comprehensive assessment of the Covid Pandemic Presented by Dr. Richard Fleming PhD, MD, JD** (<http://www.kwteaparty.com/Covid19.htm>) Video & PDF

1. Emergency use Authorization – Bypassed an important Step (AFLDS)

There is no available alternative to prevent or treat the disease.

Dr. Brian Tyson – 1900 confirmed cases of Covid19 - 0 deaths – AFLDS Real Life Experience – White Coat Summit II.

A. Sample Protocol Treatment: 100% Effective - Primaquine 200mg day 1 – Clindamycin 150 mg every 6 hrs for 7 days – hydroxychloroquine 200mg every 8 hrs for 10 days.

B. Monoclonal antibodies (lab made antibodies) for mild to moderate disease.

2. Fact Sheet Pfizer-Biontech Covid-19 Vaccine to prevent Coronavirus Disease.

(Terms are important COVID-19 is the Description of the symptoms caused by the SARS-CoV-2 virus) Covid-19 disease is caused by a coronavirus called SARS-CoV-2 The Vaccine may prevent COVID-19. It does not keep you from catching the SARS-Cov-2 virus.

3. Variants

Covid19 Delta Variant B.1.617.2 Lineage is the same as the India Variant. They are supposed to be easier to catch.

4. AFLDS filed a Motion for Temporary Restraining Order 5/19/21 denied 5/24/21.

Plaintiffs, investigation has revealed that the defendants appear to have numerous disclosed and undisclosed conflicts-of-interest that should deeply trouble any reasonable observer concerned about the integrity of the EUA process. For instance, Defendant the National Institutes of Health(“NIH”) appears to be a co-creator and co-owner of the intellectual property in the “Moderna COVID-19 Vaccine”

5. The Vaccine Adverse Event Reporting System (VAERS)

From 1990 to 2020 there were less than 204 Vaccine related deaths/yr. reported to VARES. As of 7/21/21 there are reported to VARES 5,913 Vaccine related deaths.

6. **2 New Vaccines – Not the mRNA vaccines:**

The Novavax vaccine (called NVX-CoV2373) is made with lab-grown copies of that protein (made from moth cells) and works by teaching the immune system to make antibodies to the spike protein. Spike proteins are harvested from the moth cells and assembled into nanoparticles. While the nanoparticles mimic the molecular structure of the coronavirus, they cannot replicate or cause COVID-19. Phase 3 - clinical trials with 30,000 Volunteers. Closest to gaining to Approval.

The Vaxxinity Covid-19 vaccine, known as UB-612, is the first multipeptide-based vaccine for [COVID-19](#). It activates both an antibody response and a T-cell response to SARS-CoV-2 for robust protection.^[11]

Of multiple SARS-CoV-2 vaccines currently in clinical development, almost all focus solely on the spike protein. UB-612 is designed to target a critical antigen from the spike protein, the Receptor Binding Domain, thought to be necessary for viral attachment to human cells, plus additional viral epitopes (from other viral structural proteins) designed to promote B-cell and CD8+ T-cell memory responses. Entering Phase 2.

7. BinaxNOW Covid19 Test – 15 minutes. Purchase at Drug Stores and WalMart.

Background History of How we got Here - See the Back of this Sheet.

2001 – Baric (UNC) Files Patent to Manipulate Genomes

2014 - Ralph Baric Receives International Patent to Alter Spike Protein of Corona Viruses

2007 U.S. Government Has Patent Rights to Insertion of Furin Protease Cleavage Sites – NIH Grants

Understanding Gain of Function is Important

GOF Reveals that SARS-CoV-2 is Man Made & Paid for by U.S Taxpayers

1999 - U.S. Dept. of Health & Human Services (HHS) funds research amplifying the infectious character of Coronaviruses.

2000 - In May* Ralph Baric successfully uses reverse genetics (cDNA**) to rescued infectious clone*** of SARS-CoV Urbani.

2002 - In April Christopher M Curtis, Boyd Young & Ralph Baric file a patent for a recombinant (chimeric) DNA means of producing “an infectious, replication defective, coronavirus.” Funded by NIH Grant GM63228.

Dr. Shi Zhengli and colleagues increase infectivity by combining an HIV pseudovirus with SARS-CoV-1.

2003 - Dr. Ralph Baric at UNC Chapel Hill receives NIH grant AI23946-08 officially classified as affiliated with NIAID.

• Baric works on synthetically altering Coronaviridae.

2006 - Chinese**** researchers combine HCV, HIV-1, SARS-CoV-1 & SARS-CoV-2.

* U.S. Provisional Application No. 60/206,537, filed May 21, 2000 ** Complimentary DNA is Reverse Transcription (mRNA->DNA)

2007 - NSF Grant IIS-0513650 (Italy, France and Indiana University) study addresses FIRST CRITICAL STEP to control a pandemic – shutdown International Travel. Given this knowledge why did Fauci tell Trump a Travel Ban was unnecessary?

2011 - Scientists express Concerns about GoF after Labs in Wisconsin and the Netherlands mutate already lethal H5N1 Asian Avian Influenza Virus (Bird Flu) increasing infectivity.

2013 - Middle East Respiratory Virus (MERS) outbreak with 30-40% fatality in Saudi Arabia (2014) and South Korea (2015). Rhesus macaques show early treatment with interferon- α 2b and ribavirin critical to treatment success.

Baric* and Chinese scientists isolate 3 coronaviruses from bats with HKU4 spike protein - unable to infect human cells.

2014 - CDC accidentally exposes workers to Anthrax; ships deadly flu virus. NIH finds 50-year old forgotten vials of smallpox.

Obama Administration halts Gain-of-Function Research

* Yang Y., Baric RS, et al. Receptor usage and cell entry of bat coronavirus HKU4 provide insight into bat-to-human transmission of MERS coronavirus. PNAS 2014;111(34):12516-12521. Funded with NIH grants RO1AI089728 & R21AI109094.

2015 - Dr. Zhengli et al “reengineered HKU4 spike aiming to build its capacity to infect human cells.” “To this end, we introduced two single mutations...mutations in these motifs in coronavirus spikes have demonstrated dramatic effects on viral entry into human cells.”

* Baric and Zhengli announce they can make a more dangerous, virulent and infectious virus.

2017 - Gain-of-Function Research Ban Lifted

2018 - Zhengli presents research at Shanghai Jiao Tong University on 14 Nov. 2018 entitled “Studies on Bat Coronavirus and its cross-species infection.” This presentation has since been deleted from the University website.

2019 - Summer deletion of Wuhan Institute of Virology Corona Virus data bank.

December 31 Wuhan Municipal Health Commission report** discussing COVID-19 pneumonia - deleted.

* Zhengli S, Baric RS, et al. Two Mutations Were Critical for Bat-to-Human Transmission of Middle East Respiratory Syndrome Coronavirus. J Virol. 2015;89(17):9199-9123. Funded by NIH grants RO1AI089728, RO1AI110700. ** Wuhan City Health Committee (WCHC). Wuhan Municipal Health and Health Commission's briefing on the current pneumonia epidemic situation in our city 2019 [updated 31 December 2019, 14 January 2020].
